

National Inter-Ministerial Tree Planting and Restoration Programme Update

The National Inter-Ministerial Tree Planting and Restoration Programme, under the auspices of the Office of the Deputy President, aims to address environmental challenges by promoting tree planting and restoration efforts across Kenya. This report provides a comprehensive update on the progress of our tree planting activities conducted in various regions.

Tree Planting Activities

S/NO	Place	Date	No. of Seedlings Planted
1.	Loitoktok	7th — 9th Nov, 2023	5,000
2.	Tharaka Nithi (Chuka)	16th — 19th Nov, 2023	10,000
3.	Bomet (Bomet University)	22nd — 24th Nov, 2023	12,000
4.	Kwale	6th — 9th Dec, 2023	10,000
5.	Migori (Kuria)	25th — 26th Jan, 2024	100,500

Total Seedlings Planted: The cumulative efforts of these planting initiatives amount to an impressive total of 137,500 seedlings.

The commitment to tree planting and restoration demonstrated through these efforts reflects our dedication to environmental sustainability and combating climate change. We remain steadfast in our mission to promote a greener, healthier future for Kenya and its citizens.
